

PROFILE

UI/UX Designer with 4+ years creating intuitive digital experiences across mobile, web, and e-commerce platforms. Specialized in clean, minimal interfaces backed by systematic design thinking. Computer science background enables seamless developer collaboration and rapid iteration on ambiguous product challenges.

WORK EXPERIENCE

UI/UX Designer - Dribbble Freelance Projects / Collaboration

2021 — Present (Remote)

- Designed mobile and web interfaces for 8+ startups and small businesses, from concept to handoff.
- Built scalable component libraries in Figma, reducing design inconsistency by ensuring reusable patterns.
- Delivered MVP-ready designs for AI mindfulness iOS app under tight timelines and technical constraints.
- Translated complex technical documentation into user-centered interfaces through close stakeholder collaboration.

Graphic Designer - GARDEROBE (Official representative of world-renowned luxury and premium clothing brands)

2025 — Present, (Tbilisi, Hybrid)

- Led visual identity redesign for luxury retail brand representing HUGO, BOSS, ZEGNA, Seidensticker, Paul & Shark, Bottega Veneta, FYNCH HATTON, Dolce & Gabana, etc..
- Redesigned landing page and design system, modernizing brand presence while maintaining premium positioning.
- Created high-conversion social media content maintaining brand consistency across channels.

UI/UX Designer - Premium Jewelry Brand (Shopify)

Project (Remote)

- Designed conversion-optimized e-commerce experience for premium jewelry brand on Shopify.
- Crafted luxury-focused product pages and streamlined checkout flows aligned with brand prestige.

UI/UX Designer - Early Stage AI Startup - MASTERY™ (Equity Collaboration)

Project (Remote)

- Core design contributor for MVP0 and MVP1 of AI-powered mindfulness application.
- Collaborated with cross-functional remote team to define and execute feature-level UI strategy.
- Designed for scalability and iteration, adapting to evolving product requirements and user feedback.
